Southern States.

EMPIRE NURSERY and ORCHARD

R. L. BAKER

BAILEYTON, ALABAMA

SHIPPING POINT: CULLMAN, ALABAMA

Branch Office and Sales Yard
On Beeline Highway in Cullman

ESTABLISHED IN THE HEART OF THE BRINDLELEE MOUNTAIN IN 1914

26 Years in Serving the South with the Finest Possible
Grown Nursery Stock, Fruits, and Shrubbery

CONDITIONS OF SALE:

1. Cash with order or 25% cash, balance C. O. D., unless credit arrangements are made in advance of shipment. On open shipments, terms 60 days net.

2. We guarantee our stock true to name. In no case shall our liability be more than the original invoice value. We ship according to instructions or the best method according to the size of order. When stock planted does not prove true to name, we replace same free of charge upon proof. When stock dies within the first 12 months, we replace same at 1/2 purchase price except balled Evergreens and Pecans.

3. There is no charge on packing and boxing—transportation paid to your door.

4. Claims for shortage or damage must be made within 10 days after receipt of Nursery Stock. To err is human, even if we take every care to fill every order correctly we make mistakes. However, we are always ready to make adjustments that will be satisfactory to you.

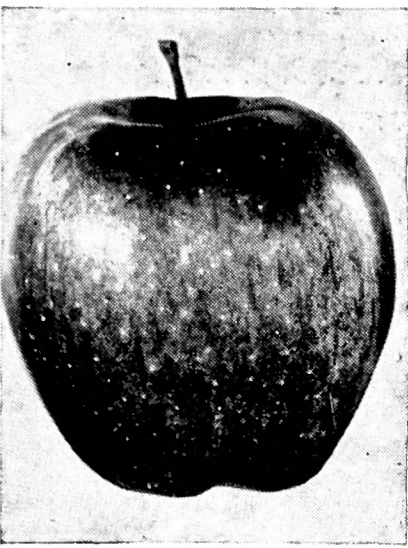

5. For reference we give the following:

APPLE VARIETIES

ARKANSAS BLACK—

Dark red, late fall ripening.

RED ASTRACHAN —

Red, striped, an early June ripening variety.

ATHA—Deep yellow, ripens in the month of July. Excellent for cooking, canning, and drying.

BEN DAVIS—Big striped, early fall apple. Good for cooking.

BLACK BEN DAVIS—Deep red, good size fruit, fine for cooking.

DELICIOUS, NEW RED—The fine deep red apple that is outselling and outbearing all other Delicious varieties of apples.

DELICIOUS, NEW YELLOW—The deep yellow apple that is an excellent apple for eating and cooking.

EARLY HARVEST—The finest of all the Yellow June Apple varieties.

EARLY TRANSPARENT—A very fine early Apple variety and yellow.

GRIMES GOLDEN—The pride of all canning and cooking apples, yet its deep golden color makes it a very good selling apple for the market.

HACKWORTH—The August ripening apple variety that is taking the day.

HACKWORTH, NEW RED—Likeness to the old Hackworth, a deep red color, excellent for drying.

JUNE, C. RED—The first ripening June apple, deep red, and fine for early marketing.

JUNE, STRIPED—A striped light red June apple, a very fine variety.

JUNE, YELLOW—A deep yellow and fine for eating and cooking.

KENNARDS CHOICE—A very good large red late fall apple.

MAGNUM BONAM—Red striped and fine for eating in September.

M. B. TWIG—A very good early Winter. Large and deep red.

STAYMAN, NEW RED—An excellent early fall apple for cooking and canning. Large and Red.

WINESAP—The finest late Fall apple for all around apple, for cooking, canning, eating, and for the market.

WINTER TERRY—A small red apple that is fine for winter keeping.

YELLOW HORSE—A good Summer apple for the home use.

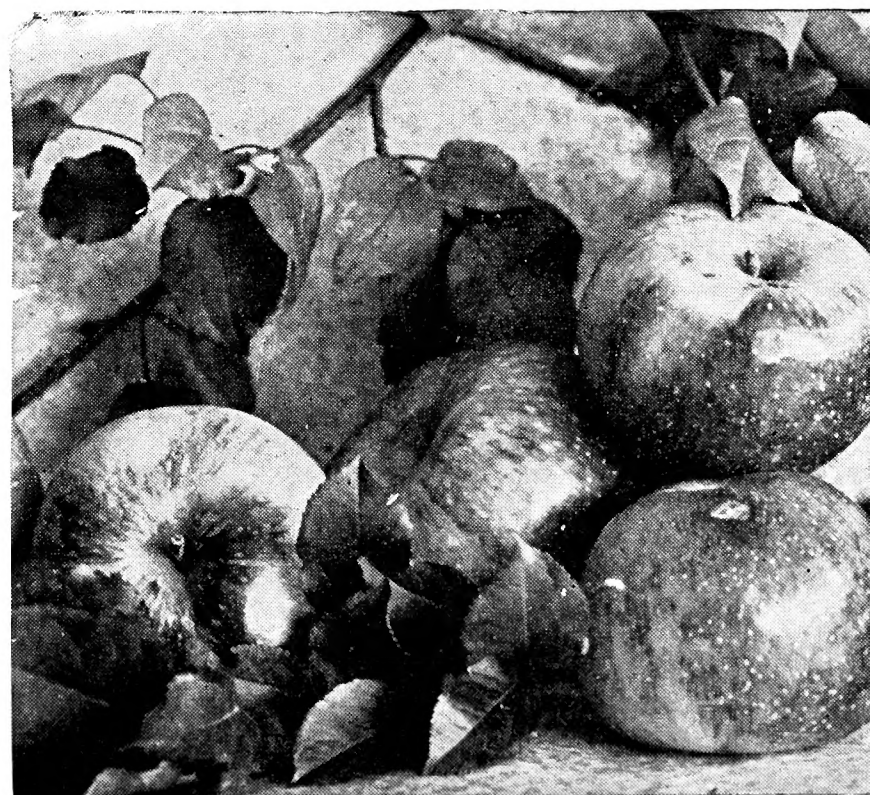

YATES—The king of all keeping apples. Very good flavor.

THE WORLD'S FAMOUS APPLE, TOWN TALK,

FOR ONLY \$2.50

This 2 and 3 year apple tree, has six bearing varieties of apples on one tree. That is in fact, just a 6 N 1 tree. The owner, R. L. Baker developed this tree for the small lot owner. With just two trees planted in a small back yard will yield apples throughout the entire growing season. At the age of 15 years, two trees should bear close to 20 bushels of apples. This amount would nearly supply the family needs. And too, in addition of bearing fruit, they make good shade trees.

PLAN TO PLANT ONE THIS YEAR

Winesap

PEACH, NUT AND PLUM TREES

PEACH TREES

ARP BEAUTY — Early yellow freestone. Ripens the middle of June. Good.

AUGBERTA—Seedling from the Elberta ripens first part of August, 20 days after the Elberta, same type.

CARMAN—A very fine early white peach. Ripens latter part of June.

CHAMPION—A very fine white peach, ripens with the Carman. Freestone.

EARLY ROSE—A very good early type, good shipper, brings tops on the market. Ripens first part of June.

EARLY ELBERTA — Yellow freestone and ripens 20 days ahead of Elberta.

ELBERTA—The queen of all peaches.

GEORGIA BELLE—The finest of all the white peach type. Red cheek.

GOLDEN JUBILEE—Ripens 10 days ahead of Hiley. Yellow freestone.

HEATH CLING—A sweet, white clingstone. Ripens in late Summer.

INDIAN CLING—Red to the core. The cling for pickling peaches.

J. H. HALE—Ripens with the Elberta, extra large size, yellow freestone.

MAYFLOWER—The earliest peach, gets ripe in some years the last week in May. Very fine for early peach.

RED BIRD CLING—A good deep red color that makes it sell in the early season for peaches. June.

SALWEAY—A very good late yellow.

SNEED—A fine early Peach, red cheek, good quality for an early peach variety. The best early peach.

WHITE ENGLISH—Very sweet, white, and a clingstone that desires to be called the queen of pickle peaches. Yields good crops.

HALE-HAVEN—The new yellow free stone that is selling well. A very fine peach.

WHAT TO PLANT

THE PROBLEM TODAY—is what to plant that you can successfully grow **FRUIT**. In the **TWENTIETH CENTURY** most fruit requires spraying, pruning, and fertilizing. However, we have several varieties of Fruit that doesn't require the Special Sprays and etc. Thus, you may plant Stuart Pecans, Japan Persimmons, a few Plum varieties, a few grape varieties, and fig trees without any Special Spraying. With only a small amount of pruning and fertilizing in addition to a small required amount of cultivation and you can have lots of good Fruit for the Home Use. Given below is our selection of the **TWENTIETH CENTURY** Home Orchard that does not require Spraying to grow fairly successful **FRUIT**.

TWENTIETH CENTURY HOME ORCHARD

OUR LANDSCAPE DIVISION: Is always ready to help in planning and planting your yards. This department has experienced men in charge.

OUR FRUIT IS ALWAYS ready to be placed on your table. Many, many customers just do not believe that such fruit can be grown in Alabama. Come by and see for yourself, you are always **WELCOME**.

OUR EXPERIENCE makes it possible for us to give you the qualities of any variety or type of plant. We can always save you money by telling you just what variety or plant that is best suited for this climate. Thereby, you will have no loss of money and time in the future.

YOU ARE ALWAYS WELCOME to come by any day, or hour to visit with us. Whether you buy a hundred dollar order or just wishing to see our Nursery and plant—come out, you are always welcome. An Hour With Us Will be Worth Your Time.

WHAT WE GROW: Just nearly anything in the way of Fruit, Nursery Stock, Roses, and Shrubbery. And these at the price you can afford to pay.

**ALWAYS STRIVING TO GIVE YOU BIGGER AND
BETTER SERVICE**
